SUMMARY

I am a driven and adaptable student passionate about business, economics, entrepreneurship, and technological innovation.

Currently pursuing a bachelor's degree at the American University in Bulgaria (AUBG), I actively engage in projects and initiatives that bridge business strategy with technology, always seeking opportunities to create meaningful impact.

PROJECTS

Frontier One

11/2020 - 08/2021 Harmanli, Bulgaria

<https://io.adafruit.com/hristo1213/public>

Air Quality Monitoring station

- Responsible for sensor software development as well as for the station maintenance.
- Installation of a sensor system for monitoring and analysis of drinking water quality in the city of Sofia in partnership with Sofiyska voda, operated by Veolia.

Video game "Quantum Leap"

10/2024 - 12/2024 Blagoevgrad, Bulgaria

<https://bg-torturer.itch.io/quantum-leap>

The project revolves around crafting a fast-paced and immersive 2D platformer game where the player utilizes a teleportation gun that visualizes a bullet and teleports once a bullet collides with an object
